

Product Specification Sheet

Product:	BioClean SafeStep™ Disposable Non-Slip Overshoes
Product Codes:	NSO016W & NSO018W

Application:

- Production areas in most pharmaceutical and electrical industries
- Sub assembly areas
- Laboratories, Life Sciences

Product Description:

- Manufactured in a controlled environment, with a special blended elastomer coating over non-woven spun-bonded polypropylene that is impervious to fluids – water, oil and grease.
- Excellent traction properties over most surfaces.
- Bulk packed and double bagged for cleanroom use.

Product Specification:

Material	Elastomer coating over non-woven SBPP
Material Thickness	0.14mm (\pm 0.02mm)
Height	6.5" (\pm 0.5"); 170mm (\pm 12mm)
Tensile Length (kg/cm)	5kg / 2.5cm (min)
Colour	White
Length Product Code: NSO016W	16" (\pm 1"); 400mm (\pm 25mm)
Length Product Code: NSO018W	18" (\pm 1"); 455mm (\pm 25mm)
Tearing Strength (Kg)	1.6kg
Ultimate Elongation (%)	120%
Unit Weight (gsm)	70 gsm (\pm 7gsm)
Packaging:	100 pieces/sealed inner bag; 1 sealed inner bag/sealed outer bag; 4 outer bags/carton (400 pieces) Dimensions: Inner bag: mm (L) x mm (W) Carton: mm (L) x mm (W) x mm (H)
