

## NOTICE OF PRODUCT REPLACEMENT

The original IV2100 Combi-Cap Luer Lock Closure is now out of stock, and will be replaced with an updated Combi-Cap Luer Lock Closure, the IV2102.

Combi-Cap IV2102 retains all of the same terrific features as the previous IV2100, including:

- Male and Female Luer Lock connection.
- Secure closure of syringes, catheters, and hypodermic devices.
- Non-toxic and non-pyrogenic.

As before, each product is sterilised, individually blister packed and supplied at 1000 pieces per pack. Each cap fits all luer lock syringes and TPN ports for a multitude of clinical operations.

For further questions regarding this product or to order a free sample of the IV2102 please call **0800 0328 428** or email [sales@helapet.co.uk](mailto:sales@helapet.co.uk). Alternatively you can visit [www.helapet.co.uk](http://www.helapet.co.uk) to find out more about our medical and cleanroom products.

Kind regards,

Chris Steng
