PRESS RELEASE **** PRESS RELEASE **** PRESS RELEASE

Can you handle liquid and powder cytotoxic spills?

Two firsts in one! Berner's NEW Spill Kit XP is the first kit suitable to safely clean up **both** liquid and powder Cytotoxic spills and it is the first kit to comply with European PPE guidelines for handling cytotoxics.

Every kit contains appropriate safety apparel, absorbent mats, distilled water and scoop and tongs for glass and sharp fragments, as well as packaging for disposal. With *easy to follow* instructions, units can rest assured that spills can be dealt with quickly and efficiently whilst offering maximum protection to the operator.
