**Heading: Greater choice for Cyto sharps disposal**

We are pleased to advise that our Sharps Bin range has been extended to give you greater choice. Individually double bagged and now available sterile in 3 sizes - 0.6 litre, 2.5 litres and 5 litres – ensuring there is an appropriate size container for the safe disposal of your Cytotoxic contaminated sharps.

Supplied with purple lids and labelling ensures that they are fully compliant with current best practice guidelines (DoH “Health Technical Memorandum 07:01 Safe management of healthcare waste”),
